EMERGENCY PLAN OF ACTION

1. If the student exhibits any signs of a seizure, call the clinic immediately. Note the time the seizure began.
2. Protect the student from injury during the seizure. Remove any hard or sharp objects from the immediate area. Do not attempt to restrain the student's movements. Do not place any object into the student's mouth. If available, place a blanket, jacket, pillow, etc., under student's head.
3. If student begins to vomit, turn him/her on their side.
4. Do not leave the student alone, but evacuate students, visitors and unnecessary staff from the area.
5. Following the seizure, document what happened before, during and after the seizure, time seizure began and length of seizure, and what seizure activity was present.
6. Notify parents of the seizure activity.
7. Call 911 immediately if any of the following are present:
    a. Absence of breathing and/or pulse – begin CPR for respiratory or cardiac arrest
    b. Seizure lasts five minutes or greater
    c. Two or more consecutive seizures
    d. Any difficulty breathing
    e. Student continues to have pale or bluish skin/lips or noisy breathing after the seizure has stopped
